

Merge Documents[™]

A paperless office solution to store and manage documents electronically

Customers report an average time savings of **12%** for each billing employee working with denials or patient inquiries—and an average time savings of **6%** for every coder who views patient files online with Merge Documents.

Your practice needs a solution that electronically captures every image, with the ability to allow retrieval, revisions, annotations, and distribution as needed. You need to increase productivity and ensure everyone in your organization—from scheduling to billing—can have access to the same documents simultaneously.

Now you can.

How We Help You

Merge Documents provides a comprehensive paperless office solution that's designed to streamline workflow, reduce expenses, and facilitate compliance with HIPAA guidelines. Merge Documents stores and manages every document electronically and provides an immediate link to RIS, PACS, and financials systems for instant document availability.

Leveraging Merge's commitment to interoperability, Merge Radiology Solutions can be completely integrated for a comprehensive end-to-end radiology solution.

With Merge Documents You Can

Eliminate the need to search through patient files, while deploying personnel for other critical tasks

View documents seamlessly, improving clinician productivity

Decrease accounts receivable days and increase collections with access to necessary documentation at all times

Share documents electronically between multiple imaging locations

Perform HIPAA and QC audits more quickly—and without file room involvement

Merge Radiology Solutions

Merge Radiology Solutions provide a suite of products for the entire radiology business. From the radiology lab to the front office to the back office, Merge Radiology Solutions provide more efficient workflow, access to archived images and the functionality to meet Meaningful Use.

Merge has been delivering Radiology Solutions for more than 20 years. Using Merge Radiology Solutions, hospitals, imaging centers, physicians and patients have benefitted from the efficiencies and cost savings that come from best-of-breed imaging and information solutions.
