

# Merge EDC™

*Make the clinical trial process smarter*

## + Benefits

- Gain end-to-end visibility and decision management capabilities
- Improve study management capabilities by employing a more strategic approach to EDC
- Make decision-making faster and based on accurate information in virtual real-time
- Leverage the expertise of a single-source eClinical provider
- Deploy highly skilled domain experts

*Access all your studies with a single username and password using Merge Portal. Merge EDC provides a central source for managing and analyzing the progress of clinical trials.*

*Simplified Web-based data capture, smart management tools and deep reporting capabilities in virtual real-time, drive high quality data, improved study performance and timely, well-informed decision-making.*

Because more timely and informed decisions are the best pathway to on-time drug approvals and reduced costs

### Goal

Merge' EDC provides an advanced, flexible and adaptable data capture solution designed for ease-of-use, end-to-end visibility, and powerful patient, site and trial management capabilities.

### Advantages

- Deep visibility and fast access to actionable clinical trial study information
- Adaptable, user-friendly interface

that's apparent to data managers, monitors and investigators alike

- Full and proven integration with Merge' IVR/IWR, ePRO and Imaging Solutions, as well as third-party data sources (safety, core labs)
- Merge Portal provides single username and password to access all your studies and applications

### Benefits

- Gain the ability to make smarter decisions, faster at any point in the trial's lifecycle with full visibility into trial and site:
  - Progress
  - Performance
  - Compliance

**+** *Proven, Web-based solutions for collecting, managing and analyzing clinical trial information in virtually real-time.*

- Dynamic business process engine supports multiple workflows to ensure that information collected in the field is verified and complete.
- Robust, real-time reporting capabilities support Adaptive Study designs by enabling better integration of study information and knowledge as the trial progresses.

**A winning approach to data capture and management**

**Trial time efficiency**

From leveraging innovative proprietary tools for rapid, predictable study start-ups, to providing a central source for managing and analyzing your study's progress, Merge' EDC solutions help ensure milestones are reached and timelines are met.

**Higher quality data**

One of the most straightforward,

comprehensive and adaptive data collection and management solutions available, Merge EDC are globally proven to help enhance data quality.

**Expert project teams**

With you every step of the way, our highly experienced project teams that speak your language, understand your study goals, and are proactive and consultative to ensure you get the maximum benefit from our solutions.

**Strengthened site relationships**

We'll help you keep more sites happy and coming back with powerful tools for effective site management, EDC that takes the burden off sites, and world-class support that's never outsourced.
