To run a successful business, your outpatient center needs to focus not only on growing revenue, but also on operational improvements and cost management. This requires the ability to identify what to change in your practice and how to change it. But you can’t change what you can’t measure and you can’t effectively measure siloed data.

**How we can help you**

Merge Dashboards is an agile business intelligence solution that is designed to help produce better outcomes by collecting and analyzing billing, workflow, clinical, and compliance data. Using data from Merge RIS™, Merge Dashboards automates the creation of reports and dashboard views that allow you to monitor critical metrics to ensure steady progress toward success.

“89% of leaders agreed on the need to analyze data across the care continuum to ensure clinical and financial success.”*

Merge Dashboards is an agile business intelligence solution that drives better outcomes by collecting and analyzing billing, workflow, clinical and compliance data. With Merge Dashboards you can:

- **Get a real-time pulse on your organization** by gathering and analyzing data from Merge RIS and Merge PACS™.
- **Boost your business insight**
  Powered by IBM® Cognos®, a leading business intelligence platform, Merge Dashboards allows you to explore information for more data-driven decision making.
- **Address your unique challenges**
  With Merge Dashboards, you can leverage pre-built reports or generate custom-tailored ones to produce better outcomes.
- **Automate your processes**
  Merge Dashboards streamlines your business monitoring activities by automating data collection, report generation and alert notifications.
