

The eFilm Amnesty program gives your organization a chance to make sure you are compliant with eFilm licensing. If your organization finds that there are installations without the proper licensing, then you can simply purchase a license to become current with your licensing without penalty through December 31<sup>st</sup>, 2008. After this amnesty period, if there are discrepancies reported to Merge or the SIIA, this may trigger an audit by the SIIA. Such an audit conducted by the Software and Information Industry Association (SIIA) could result in penalties in the amount of 3 times the value of the licenses found to be invalid. For more information on the SIIA, go to [www.sii.net](http://www.sii.net)

In an effort to help your organization remain compliant with the eFilm software end user license agreement, we are providing this audit form for your convenience. There is also an online mechanism for checking to see if you have a valid license key and this can be found on the [www.authenticefilm.com](http://www.authenticefilm.com) web site. If you have single licenses or only a few licenses you want to check, we recommend the online mechanism. This form is for those who have multiple installations that you want to check or prefer working with hard copy, this form is available.

Please fill out the audit form and have a representative from your organization sign this form. Once received and verified, we will be sending back a receipt via email for your records.
